GrainCorp to exceed 2007/2008 receival forecast

GrainCorp Limited today announced it expects to exceed the initial receival forecast by 1 million tonnes.

Mr Tom Keene, Managing Director of GrainCorp, said that he now expected total receivals to be in the upper range of 4-5 million tonnes.

“The summer crop is looking great with areas in the Darling Downs and Northern NSW set to begin harvesting by the end of the month. There are also large sorghum plantings taking place in Central Queensland where many farmers have a substantial moisture profile” said Mr Keene.

The sorghum harvest will begin at the end of January and go through to July.

Winter harvest is nearly completed with receivals now set to exceed 3.5 million tonnes.
