ANW1	N/A	N/A	\$261.00
ANW2	N/A	N/A	\$246.00

GrainCorp have been providing Australian growers with competitive pooling options for more than a decade.

There can be big differences between pool providers. Please make sure you clearly understand the cost structure, selling strategy as well as the hedging strategy of your pool provider before making a pooling choice.

To assist you in making your pooling decision GrainCorp make all estimated cost and charges publicly available. Please see our pool calculator at www.graincorp.com.au for estimated cost and charges down to a local silo level.

Our website also contains pool flyers outlining the objective, the planned selling strategy and the planned hedge strategy, for each of the pools we offer.

If there is anything you would like to know more about in regards to our pools, please feel free to call your local merchant on the numbers on the bottom of the page.

Wheat Market Comments: The last week has seen another upset in the financial world with the potential default one of the key Dubai government sponsored companies (raising doubts about the whole financial system again). This had some initial impact on commodity markets which fortunately seems to have subsided here about one week later. International buyers of physical wheat are still getting used to the higher prices and not much business has been conducted in the last week. On the other hand sellers of Australian wheat are not in a hurry to sell until the final quality profile of our crop is know. Wheat EPRs have been maintained unchanged this week.

This page shows the return for the Pre Harvest Pools only. These pools are separate pools to the Harvest Pools and separate to the "Early Commitment Premium" contracts offered for the Harvest Pools.

For further details about our pools visit www.graincorp.com.au or call your local Graincorp Marketing Services Representative. Alternatively call GrainCorp on our free call number 1800 809 482

All the estimated pool returns (EPRs) on this page are quoted on a Free On Board (FOB) basis and are quoted nett of the pool management fee.
