ANW1	N/A	N/A	\$256.00
ANW2	N/A	N/A	\$241.00

GrainCorp have been providing Australian growers with competitive pooling options for more than a decade.

There can be big differences between pool providers. Please make sure you clearly understand the cost structure, selling strategy as well as the hedging strategy of your pool provider before making a pooling choice.

To assist you in making your pooling decision GrainCorp make all estimated cost and charges publicly available. Please see our pool calculator at www.graincorp.com.au for estimated cost and charges down to a local silo level.

Our website also contains pool flyers outlining the objective, the planned selling strategy and the planned hedge strategy, for each of the pools we offer.

If there is anything you would like to know more about in regards to our pools, please feel free to call your local merchant on the numbers on the bottom of the page.

Wheat market Comments: Wheat markets are slightly stronger this week with the fluctuating AUD and stronger US futures market pushing flat price values higher. Australian wheat has found homes in international markets but the late rise in the AUD later in the week will hamper further export opportunities. This week's USDA report shows the northern hemisphere crop to be in great shape, well protected by the snow with a good moisture profile. This may put pressure on Australian wheat values in the coming months as we move towards the northern hemisphere harvest. Preharvest Wheat EPRs have been reduced this month.

This page shows the return for the Pre Harvest Pools only. These pools are separate pools to the Harvest Pools and separate to the "Early Commitment Premium" contracts offered for the Harvest Pools.

For further details about our pools visit www.graincorp.com.au or call your local Graincorp Marketing Services Representative.
Alternatively call GrainCorp on our free call number 1800 809 482

All the estimated pool returns (EPRs) on this page are quoted on a Free On Board (FOB) basis and are quoted nett of the pool management fee.
