

Environment Policy

1. Introduction

- 1.1 GrainCorp is a leading agribusiness and processing business. Our vision is to lead sustainable and innovative agriculture through another century of growth.
- 1.2 As a business involved in agriculture and food, we recognise that we are deeply connected to the health of the land and ecosystems.

2. Commitment of GrainCorp

- 2.1 We are committed to minimising our environmental impact and stewarding the resources of the earth for future generations.
- 2.2 Our aim is to minimise the environmental impact of our operations through commitment to:
 - a) Pro-actively assessing, monitoring and managing environmental impacts, risks and incidents while complying with regulatory requirements
 - b) Improving GrainCorp's resource efficiency, emphasising sustainable practices and minimising waste and pollution
 - c) Maintaining Environmental Management Systems which are aligned with recognised international standards
 - d) Establishing and regularly reviewing environmental objectives and targets to continually improve the company's environmental performance
 - e) Sharing the Environmental Policy with everyone working for, and on behalf of GrainCorp, and ensuring they are aware of their environmental responsibilities
 - f) Education and training for relevant GrainCorp employees in environmental issues and impacts
 - g) Ensuring ongoing oversight and review at the highest levels
 - h) Reviewing the Environment Policy at least every two years.

3. Responsibilities

GrainCorp's Managing Director & CEO, the Executive Leadership Team and all levels of management are responsible for implementing the Environment Policy.

A handwritten signature in blue ink, appearing to read "Robert Spurway".
