

February 2021 - PKGT Monitoring Summary Report

The following Port Kembla Grain Terminal (PKGT) monthly monitoring summary report has been prepared by GrainCorp in accordance with Section 66 of the *Pollution of the Environment Operations Act 1997*. Monitoring data shared with the public on the website includes that collected as part of the Environmental Protection Licence (EPL) for the Port Kembla Grain Terminal Site. Monthly monitoring summaries are completed on the last day of any given month for the data collected.

Report contents

Section A. Map of PKGT and the location of sampling points as per the Environmental Protection Licence

Section B. PKGT fumigation emissions monitoring (Sampling Points 3,4,5,6,7 and 8)

Section C. PKGT interceptor water monitoring (Sampling Point 1)

Section D. PKGT diesel boiler monitoring (Sampling Point 2)

Monitoring triggered in this period and summarised in report?

Methyl bromide max concentration = 8g/sec, min velocity = 1.4m/sec

Phosphine max concentration = 0.0424g/sec; min velocity = 0.5m/sec

^a Initial Purge times that coincide are shaded in purple.

^{**}The initial Purge phase is the time between the start of vent and until emission rate from the grain silo is either 1 gram per second of Methyl Bromide or 0.01 grams per second of Phosphine. Only one grain silo can be in the initial purge phase at any one time. The maximum number of grain silos venting at any

C. GrainCorp - Port Kembla water monitoring data summary: February 2021

The concentration of each pollutant specified below has been determined using the required sampling method, units of measure and sample frequency specified in the EPL. Water parameters and water samples are collected by suitably qualified staff and, where required, water samples are analysed at a NATA accredited laboratory.

Monitoring frequency: Single sample each day during any discharge (i.e. daily)

Number of water release events during month: 3

Monitoring Point Location: Point 1

Number of times measured/sampled during month	Pollutant (discharge to water)	Result			Limit	Units of measure	Exceedance (yes/no)
