COMMENTARY:

- Harvest activity throughout northern NSW and Queensland is nearly complete with good quality received despite some weather damage from recent storms. Good rainfall across Queensland welcomed ahead of summer crop
- Southern NSW harvest ramps up with some yields above expectations
- Harvest is well underway in Victoria, with large quantities of malting barley being delivered to GrainCorp sites, but delays expected this week due to forecast rain
- New podcast discussing production forecast updates and feed barley markets creating pricing weakness is now live: graincorp-seasonupdate.com.au
