Harvest Update

Grain receivals (tonnes) at GrainCorp's sites as at 5 November 2018¹

	Since last report	Total
Queensland	25,700	46,700
New South Wales	20,100	21,100
Victoria	22,000	25,500
Total grain receivals		93,300

Transhipments via port	11,000	167,000
Total network		260,300

Given the drought conditions this harvest, a significant share of production is expected to remain on farm or be delivered direct to domestic consumers.

COMMENTARY:

- Chickpeas are being delivered across Queensland with initial quality above expectations
- Early deliveries across northern NSW with good protein levels however this is offset by higher screenings
- Starting to see samples come into site across southern NSW and Victoria with positive signs on quality and yield
- Forecast storms may interrupt harvest activity across eastern Australia
- High cash prices are encouraging strong competition across GrainCorp sites for new season grain
- New podcast discussing sorghum is now live: graincorp-seasonupdate.com.au
