October 2026 PKGT Monitoring Summary Report

The following Port Kembla Grain Terminal (PKGT) monthly monitoring summary report has been prepared by GrainCorp in accordance with Section 66 of the *Pollution of the Environment Operations Act 1997* . Monitoring data shared with the public on the website includes that collected as part of the Environmental Protection Licence (EPL) for the Port Kembla Grain Terminal Site. Monthly monitoring summaries are completed on the last day of any given month for the data collected.

Report contents

Section A. Map of PKGT and the location of sampling points as per the Environmental Protection Licence	**Monitoring triggered in this period and summarised in report?**		
Section B. PKGT fumigation emissions monitoring (Sampling Points 3,4,5,6,7 and 8)		☑ Yes see Section B	☐ No has not been included in report
Section C. PKGT interceptor water monitoring (Sampling Point 1)		☑ Yes see Section C	☐ No has not been included in report
Section D. PKGT diesel boiler monitoring (Sampling Point 2)		☐ Yes see Section D	☑ No has not been included in report

A. Sampling points as per EPL - Port Kembla Grain Terminal

October 2026 PKGT Monitoring Summary Report

Environment Protection licence (EPL) Monitoring Locations

Point	Location at PKGT
1	Located at the Bulk Liquid Storage area of the Port Kembla Grain Terminal. The water sample is collected downstream the bund valve from the final section of the interceptor.
2	Diesel boiler air vent located within the bulk liquid storage area directly east of the bulk storage tank area bund.
3 and 4	Most southern fumigation vents located beside silos A1 and B1.
5 and 6	Fumigation vent located in the centre of the site beside silos A9 and B9.
7 and 8	The northern most fumigation vents located beside silos A10 and B10, just north of points 5 and 6.

B. GrainCorp - Port Kembla Fumigation monitoring data summary: October 2026

All air monitoring has been conducted in accordance with the methodology prescribed or a methodology approved in writing with NSW EPA.

Monitoring frequency: Continuous during every ventilation
No. of ventilation events during month: 2

Sampling date (ventilation event)	Pollutant (discharged to air)	Silo Vent No.	Initial Purge start time^	Initial Purge end time*	Exceedance	Sampler (fumigator)	Parameter	Result		Limit	Units of measure	Monitoring point location	Exceedance (yes/no)
					More than one silo vent in initial purge phase?* (yes/no)			Min. value	Max. value	100 percentile (allowable)			
22/10/2026	*Single silo ventilation event*												
	Methyl Bromide	A14	18:05	N/A	no	GS, DJ, BL	Concentration	NA	5.69	8	grams per second	7	no
							Velocity	1.51	NA	1.4	metres per second		no
	Second silo ventilation event												
	No discharge occurred						Concentration	NA		-	grams per second	-	
							Velocity		NA	-	metres per second		
28/10/2026	*Single silo ventilation event*												
	Methyl Bromide	B9	14:36	N/A	no	GS, DJ, BL	Concentration	NA	5.32	8	grams per second	6	no
							Velocity	1.58	NA	1.4	metres per second		no
	No discharge occurred						Concentration	NA		-	grams per second	-	
							Velocity		NA	-	metres per second		

C. GrainCorp - Port Kembla water monitoring data summary: October 2026

The concentration of each pollutant specified below has been determined using the required sampling method, units of measure and sample frequency specified in the EPL. Water parameters and water samples are collected by suitably qualified staff and, where required, water samples are analysed at a NATA accredited laboratory.

Monitoring frequency: Single sample each day during any discharge (i.e. daily)
Number of water release events during month: 5
Monitoring Point Location: Point 1

		Result			Limit		
Number of times measured/sampled during month	**Pollutant (discharge to water)**	**Min. value**	**Max. value**	**Visible or not visible?**	**100 percentile (allowable)**	**Units of measure**	**Exceedance (yes/no)**
3	Oil and Grease	NA	NA	Not visible	Not visible	Visible	no
	pH	6.77	8.08	NA	6.5-8.5	pH units	no
	Total suspended solids	<5	<5		50	mg/L	no
	Turbidity	2	2		40	NTU	no

Sampling Event details			
Sampling date	**Sampler**	**Lab report date**	**Lab report ID**
8/10/2026	C. Shoard	16/10/2026	EW2604793
14/10/2026	C. Shoard	22/10/2026	EW2604879
23/10/2026	C. Shoard	29/10/2026	EW2605024

Unit of Measure Abbreviation	**Unit of Measure**
mg/L	milligrams per litre
pH	pH
NTU	nephelometric turbidity units
